TOTO Introduces the MH Wall-Hung High-Efficiency Toilet

New Dual-Flush Model Saves Room Space and Offers Clean Modern Design

(Morrow, GA) January 19, 2016 — TOTO expands its line of wall-mount toilets with the new MH dual-flush model, which combines powerful Dual-Max 3D Tornado flushing performance with an

elegant appearance inspired by long-view trends in global design—modern, clean, simple, and timeless. The WaterSense labelled MH high-efficiency toilet (HET) joins TOTO's popular [Maris](#) and [Aquia](#) wall-hung, dual-flush models.

People-Centered Design

The MH wall-hung HET has a chic design, characterized by a full-bodied bowl with clean, simple lines, which offers design flexibility. This stylish model saves precious space in the bathroom -- a total of 9 inches -- as its [In-Wall Tank System](#) is concealed along with the mounting bolts, water shut off valve and

connection for an optional [Washlet personal cleansing system](#). The handsome, user-friendly dual-flush push plate may be removed, providing easy access to the tank's interior components. Lifted from the floor, the wall-mount MH HET makes cleaning beneath a breeze. ADA-compliant, this versatile unit may be mounted at standard or Universal Height.

CeFiONtect Glaze

The MH HET's vitreous china bowl is coated with CeFiONtect, TOTO's nano-technology glaze that seals the porcelain with an ionized barrier. This creates a super-slippery, non-porous surface that repels visible and invisible waste. When protected by [CeFiONtect](#), the water that cleanses the bowl

and rim during the flush also removes waste, stains, residue, and limescale buildup. Owners will need fewer harsh detergents when cleaning the bowl, which are expensive and harmful to the planet.

Dual-Max 3D Tornado Flushing System

The wall-mount MH HET's [Dual-Max 3D Tornado flushing system](#) puts an end to a common complaint that many dual-flush HET owners have—the need to flush, then brush the bowl to remove streaking after every solid stop.

Inspired by tornados in nature, TOTO engineers harnessed the power of gravity and water to spin away waste by designing a seamless bowl interior with a concave rim to channel high-speed water jets. Each flush effectively removes matter, debris, stains, residue, and limescale, as it provides superior bowl and rim cleansing action.

This WaterSense-labelled, high-efficiency toilet consumes a responsible 1.28 gallons per flush (gpf) for solid waste and 0.9 gpf for liquid. Averaging solid and liquid stops over the course of a day, the average flush for this elegant dual-flush toilet is 1.0 gpf.

The new MH wall-mount toilet provides interior designers and consumers with a chic, metropolitan design option that is at home in a variety of bathroom interiors and is ideal for a powder room or small bath.

Journalists' Note: *As with all TOTO products, high-resolution digital photographs of the dual-flush MH Wall-Hung Toilet are immediately upon request.*

About TOTO

TOTO USA is headquarters for the Americas Division of the TOTO Global Group, which was established in 1917 with the founding of TOTO, Ltd., in Kitakyushu, Japan. TOTO is the world's largest manufacturer of bathroom fixtures and fittings with \$5.1 billion dollars in annual sales. For nearly 100 years, TOTO has been the recognized leader in performance innovation and design with products that enhance the luxury bathroom experience. Today, the company maintains 25,700 employees in 69 offices around the world and owns manufacturing facilities in Japan, Mexico, the USA, China and Europe with an affiliated network of more than 80 production facilities worldwide. With over 1,500 engineers on staff and three centers devoted to research and development, TOTO

is dedicated to engineering products that respect the environment while meeting people's needs for comfort, beauty and performance. TOTO's corporate philosophy —People-First Innovation —is the guiding principle for all the company's processes, from engineering and design to manufacturing and sales. Consumers enjoy the peace of mind that comes from knowing they purchased a brand that innovates to improve people's quality of life. Winner of numerous domestic and international awards and recognitions, TOTO is the only plumbing manufacturer honored as Water Efficiency Leader by the U.S. Environmental Protection Agency. The company continues to raise industry standards and consumer expectations as to what is possible in the bathroom, as TOTO believes a high-quality bathroom is an experience and an everyday luxury people value and appreciate.
